re: Quality Award 2006

We are pleased to inform you that BING POWER SYSTEMS GMBH has been granted the DUCATI QUALITY & SERVICE AWARD for the year 2006.

This is a sign of the recognition given by our Company to the Suppliers having achieved the best performance in terms of Quality and Service in the previous year.

The assessment is carried out by the Quality Direction along with specific departments in charge of internal processes within Ducati (Design, Purchasing, Production, Logistics) and within the network (After Sales, Spare Parts).

This award gives evidence of the total accord between Ducati and its Suppliers on a strategy based on common Quality and Service values, as part of a policy viewing the continuous improvement of both products and processes as the leverage to increase our common competitiveness on the market.

We thank BING POWER SYSTEMS GMBH for its co-operation and we invite you to Misano to receive your award on June 29<sup>th</sup>, 2007.

Best regards,

Carlo Salomoni  
*Quality Director*
